PROFESSIONAL SUMMARY

Test automation manager building Selenium and Playwright frameworks in Java, JavaScript, and TypeScript. Own CI/CD delivery and Saviynt IAM automation; lead 10 team members across the US, Mexico, and India.

TECHNICAL SKILLS

Test Automation: Playwright, Selenium, Cucumber/Gherkin, BDD, TestNG, UFT/QTP, UiPath; E2E, smoke, and regression testing

Languages: Java, JavaScript, TypeScript

API/Performance: Postman, REST Assured, Playwright API testing, LoadRunner, VuGen

CI/CD & DevOps: Azure Pipelines, GitLab CI/CD, Jenkins, Git, Maven

Tools & Management: Azure Test Plans, Allure, Jira, HP ALM, Bugzilla, Splunk, Salesforce; Saviynt IAM

AI-Assisted Automation: Codex, Claude; Test Planner, Test Generator, and Test Healer agents for the Saviynt Playwright framework

Working languages: English and Spanish.

PROFESSIONAL EXPERIENCE

Manager | Accenture — Jun 2009 - Present
Pleasanton, CA

Previous title: Test Automation Engineer Associate Manager

- Build Selenium and Playwright frameworks in Java, JavaScript, and TypeScript; implement Cucumber/Gherkin for Saviynt IAM testing.
- Automate 60% of 300+ Saviynt IAM manual test cases; reported execution effort is 100+ person-hours manually versus 10-16 person-hours with automation.
- Own Azure Pipelines, GitLab CI/CD, and Jenkins pipelines; run smoke tests for patches and regression tests for releases and migrations.
- Apply Codex and Claude agents to the Saviynt Playwright framework, with an estimated 70% reduction in automation design and coding effort.
- Lead 10 team members across the US, Mexico, and India; deliver an estimated 70% reduction in regression execution effort across projects.

PROFESSIONAL EXPERIENCE CONTINUED

Earlier Accenture client assignments

- Completed four client assignments across healthcare, insurance, and banking, leading automation, performance, and manual testing projects.
- Implemented keyword-driven, data-driven, hybrid, and BDD frameworks with Selenium, UFT/QTP, and UiPath for web and desktop integration tests.
- Developed LoadRunner/VuGen performance scripts and automated test data creation and validation; built reports with Jenkins, TestNG, Splunk, and Salesforce.

Test Lead | TCS - Tata Consultancy Services Dec 2008 - Jun 2009
Monterrey, Mexico

- Led knowledge transfer and process improvements during the final phase of a functional testing project.
- Analyzed requirements, designed test scripts and matrices, and executed functional tests.
- Administered Bugzilla, tracked defects, and supported users through issue resolution.

Test Automation Engineer | Softtek Jul 2007 - Nov 2008
Monterrey, Mexico

- Developed and integrated QTP automation scripts for a banking client and managed shared object repositories.
- Prepared estimates and project plans; designed test plans and testing strategy.
- Tracked defects to support test execution and issue resolution; [PLACEHOLDER: defects resolved before release].

EDUCATION

Bachelor of Science in Computer Engineering Aug 2003 - Dec 2007
Technological Institute of San Luis Potosi | San Luis Potosi, Mexico
